Guide to Sideload Apps on iPad/iPhone

1. Install AltStore on your computer:

   - Visit https://altstore.io/ and download the installer for your operating system (Windows or macOS).

   - Follow the instructions on the website to install AltServer.

2. Connect your iPad/iPhone to your computer:

   - Use a USB cable or ensure both devices are on the same Wi-Fi network.

   - Open AltServer on your computer.

   - Click the AltServer icon in the system tray (Windows) or menu bar (macOS) and select 'Install AltStore'.

   - Choose your device from the list.

3. Enter your Apple ID credentials:

   - AltStore requires an Apple ID to generate a temporary certificate.

   - You can use your regular Apple ID or create a new one for added security.

4. Trust AltStore on your device:

   - On your iPad/iPhone, go to Settings > General > VPN & Device Management.

   - Find the profile for AltStore and tap 'Trust'.

5. Download the IPA file of the app you want to sideload:

   - Ensure the file is from a trusted source.

   - Transfer the IPA file to your iPad/iPhone.

6. Open AltStore and sideload the app:

- Launch AltStore on your device.

- Tap the '+' icon in the top-left corner.

- Select the IPA file to begin installation.

7. Open the sideloaded app:

- Once installed, the app will appear on your home screen.

- If prompted, go to Settings > General > VPN & Device Management and trust the app's profile.

Notes:

- Sideloaded apps need to be refreshed every 7 days unless you have a developer account.

- Open AltStore and connect your device to your computer periodically to refresh apps.

Disclaimer: Use sideloading responsibly. Avoid pirated or harmful apps.
